1. Applicant's election of Group II, claims 7-10, 14-17, and 19-21 in the reply filed on 4/26/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 1-5, 6, 11-13, 18, and 22-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Election was made **without** traverse in the replies filed on 1/6/04 and 4/26/04.
3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
4. The abstract of the disclosure is objected to because it includes legal phraseology. Correction is required. See MPEP § 608.01(b).
5. The drawings are objected to because figures 2A-2D, 3, and 4A-4B are not properly labeled as "PRIOR ART". Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page

Art Unit: 2652

header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure of focus search on multi-layer discs.

7. Claims 7-10, 14-17, and 19-21 are allowable over the prior art of record.

None of the references of record alone or in combination disclose or suggest an apparatus for focus jump or corresponding focus jump method including objective lens, focus error signal processing/generating circuit/means, generating circuit/means, drive voltage generating means/circuit, and moving means/actuator, and **further including control means/circuit for starting a focus jump in response to a focus jump being necessary during data recording, after switching a currently high for recording laser light power to a low non-recording/erasure laser light power.**

8. This application is in condition for allowance except for the following formal matters:
the matters noted above and the cancellation of non-elected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
